

# Sachidananda Tripathy

## Self-Description

I am someone who loves to learn new things and I am very passionate about coding. I enjoy trying to keep myself updated with the latest developments in technology, which inspires me to constantly improve my skills and learn more.

## Education

### Graduation

**B.TECH**, KL University, 2021-2025  
Computer Science and Engineering - Honors

### Intermediate

**Vihan Junior College**, Visakhapatnam, 2019-2021  
I have achieved a percentage of 95.8 in my academic examination

### School

**Akshara Public School**, Tuni, 2018-2019  
I have achieved a CGPA of 10 in my academic examination from Board of Secondary Education, AP

## Skills

- Java
- Fundamental C and Python
- Data Structures
- Django
- MERN Stack
- Database Management

## Projects

### Banking and Finance, July-December 2022

This project is a part of our college SDP-1 project. We opted for Django as our backend and ended up acquiring valuable insights into web development, especially given that this is my first project in this field.

### Food and Hospitality, January-May 2023

This project is a key part of our college's SDP-2 effort. We decided to use the versatile MERN stack for our backend, and this choice led us to explore the ins and outs of web security. As we progressed, we picked up a wealth of knowledge and hands-on skills in establishing strong security protocols to protect our application and user information.

## Internships

- **Programming in Java, NPTEL**

Among the top performers of the course with 88 percent marks.

- **Design and Analysis of Algorithm**

Within the distinguished cohort of 330 individuals who successfully passed the exam, I am humbly grateful to be counted among them, having achieved a score of 61.

## Known Languages

- Telugu (Native)
- Hindi
- Oriya
- English

## Interests

- Reading Books
- Playing Chess
- Coding
- Listening to Music
- Watching Sports, Especially Cricket
